Subject: Dimock Access forms

Tate,

Per my call, please see the attached EPA-Access-Sampling document that EPA's field personnel intend to take with them to give to the homes to be sampled starting next week. I am providing this to you because your firm represents a number of the area residents, and some of them may have questions about the forms they receive.

In addition, I am attaching a second document (EPA-Water Access) which EPA's field personnel would provide to the 4 homes initially to be supplied with water, in the event that it is EPA who provides the water tomorrow.

If you have any questions about these access documents, please give me a call.

Thank you, Humane
